Professional Summary

Aspiring Java Full Stack Developer with strong foundational skills in object-oriented programming, RESTful APIs, and web technologies. Proficient in Java, Spring Boot, React, and SQL with hands-on experience building real-world web applications. Passionate about continuous learning and solving complex problems in collaborative environments.

Technical Skills

Languages: Java, Python

Web Development: HTML5, CSS, JavaScript, Bootstrap, JSON, XML

Frameworks: Spring Boot, React.js

Databases: MySQL, SQL (DDL, DML, DCL, TCL, Joins, Subqueries)

Cloud & DevOps: AWS (EC2, S3, IAM Basics), Docker, Kubernetes (Basics)

Tools: Maven, Postman, Eclipse, MySQL Workbench

Version Control: Git, GitHub

Education

B.Tech in Computer Science
Sri Venkateswara College of Engineering | 2021 - 2025

CGPA: 8.4

Intermediate (MPC)
Sri Chaitanya Junior College | 2019 - 2021

Score: 91%

Internship

Rooman Technologies - Full Stack Developer Intern   (February 2025 – May 2025)

- Completed an intensive Full Stack Development internship at Rooman Technologies, gaining hands-on experience in building web applications using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
- Worked on both frontend and backend development, developed RESTful APIs, and integrated database operations using Spring Data JPA.
- Collaborated in Agile teams to deliver end-to-end features and participated in code reviews, testing, and deployment

Projects

Ticket Booking Application

- Developed a full-stack web application using Spring Boot and MySQL that allows users to register, search events, and and book tickets.
- Features included secure authentication, real-time seat availability, and an admin dashboard for managing shows and pricing.

Student Management System

- Created a CRUD-based system using Java, JDBC, MySQL, and front-end web technologies. Enables secure management of student records, enrollment, and personal data with real-time updates and user-friendly UI.

Certifications

- Java Full Stack Internship - Rooman Technologies
- DevOps - EdX

Interests

- Interested in building smart AI agents that can understand and respond to users.
- Learning about generative AI, chatbots, and recommendation systems.
- Curious about how AI interacts with people and how to build ethical, user-friendly systems.
- Enjoy creating responsive and user-friendly websites.
- Learning modern web tools like React, HTML, CSS, and JavaScript.
- Interested in building clean and simple user interfaces.
- Exploring how design and code work together to improve user experience.
- Always looking to improve skills in front-end and full-stack development.

Soft skills

- Problem-Solving & Analytical Thinking
- Learn new tools and technologies quickly.
- Good at solving problems and thinking logically.
- Work well with others and support team projects.
- Communicate clearly with both tech and non-tech people.
- Adapt easily to new environments and changes.
- Pay attention to detail and write clean code.
- Passionate about learning and growing in tech.
